DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the new statement of priority is incorrect as the instant application was filed after the issuance of 6,499,168 thus there is no copendency. It also appears that certain applications listed in the first prior patent, i.e. 6,655,243, are not listed here thus the chain of priority is unclear.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 6-13 are finally rejected under 35 U.S.C. 102(b) as being clearly anticipated by any of Anderson et. al. (218), (106), (561) as the effective date of the new matter in this application is the actual filing date and applicants' prior patents are more than one year from that date.

Response to Arguments

3. Applicants' arguments filed 07 December 2004 have been fully considered but they are not persuasive.

This application is only a CIP of the first listed patent, i.e. 6,655,243, which does not include any of the claimed pliers structure, thus the effective date for the claimed subject matter is only the filing date of this application. The rejection over applicants prior patents is thus repeated.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
